Pacific Coast Archaeological Society Quarterly

The *Pacific Coast Archaeological Society Quarterly* is a publication of the Pacific Coast Archaeological Society (PCAS), which was organized in 1961. PCAS is an avocational group formed to study and to preserve the anthropological and archaeological history of the original inhabitants of Orange County, California, and adjacent areas.

The Publications Committee invites the submittal of original contributions dealing with the history and prehistory of the area. Although PCAS is especially interested in reports which shed further light on the early inhabitants of Orange County, it is always interested in reports on the wider Pacific Coast region.

Information about subscriptions to the *Pacific Coast Archaeological Society Quarterly* and the *PCAS Newsletter* is available online at www.pcas.org. Back issues of the *Pacific Coast Archaeological Society Quarterly* are available. An index to Volumes 1 through 40 is available as Volume 40, Number 3 & 4. This searchable index is online at www.pcas.org. Three *Occasional Papers*, on Catalina Island, Mexican Majolica, and the Peralta Adobe, have also been published by PCAS. To place an order, receive information about the Pacific Coast Archaeological Society, or submit an article for publication, email publications@pcas.org or write: Pacific Coast Archaeological Society, P.O. Box 10926, Costa Mesa, California, 92627. Additional information is available at www.pcas.org. PCAS is not responsible for delivery of publications to subscribers who have not furnished a timely change of address. Articles appearing in the *Pacific Coast Archaeological Society Quarterly* are abstracted in *Historical Abstracts* and *America: History and Life*.

Recent issues of the *Pacific Coast Archaeological Society Quarterly* appear on the Internet at www.pcas.org and can be downloaded and viewed, but not printed. This issue of the *Pacific Coast Archaeological Society Quarterly* is copyrighted © 2009 by the Pacific Coast Archaeological Society. ISSN 0552-7252.

About the Guest Editor

Jill K. Gardner, Ph.D., received her B.A. and M.A. in Anthropology at California State University, Bakersfield, and she was awarded a Ph.D. in Anthropology from the University of Nevada, Las Vegas. She is currently a Principal Investigator at ASM Affiliates, Inc., in Carlsbad, California. Dr. Gardner's main research areas are the Mojave Desert, the Great Basin, the southern Sierra Nevada, the southern San Joaquin Valley, and the southern California coast. She has also conducted excavations and analysis of Late Roman/Coptic mummies at Tell El-Hibeh in Egypt and participated in excavations at a Neolithic site in southern Jordan. Dr. Gardner has published articles in the *Journal of California and Great Basin Anthropology*, *Quaternary Science Reviews*, *British Archaeological Reports*, the *Pacific Coast Archaeological Society Quarterly*, *Coyote Press Archives of Great Basin Prehistory*, *Proceedings of the Society for California Archaeology*, and *Nevada State Museum Anthropological Papers*, and she has co-authored books through the University of Arizona Press and AltaMira Press.

About the Authors

Henry Koerper, Ph.D., is retired from Cypress Community College but has managed to keep active as a consultant to Statistical Research, Inc., Redlands Office, and to Scientific Resource Surveys, Inc., Orange County Corporate Office. His interests outside of archaeology include American Indians in modern sports, the California gold rush, and the history of San Francisco.

Mark Q. Sutton, Ph.D., began his career in anthropology in 1968. While still in high school, he took advantage of the opportunity to participate in archaeological excavations conducted by the local community college. He went on to earn a B.A. (1972), an M.A. (1977), and a Ph.D. (1987) in anthropology. He has worked as an archaeologist for the U.S. Air Force, the U.S. Bureau of Land Management, various private consulting firms, and has taught at a number of community colleges and universities. He taught at California State University, Bakersfield, from 1987 to 2007, where he retired as Professor Emeritus of Anthropology. He now works for Statistical Research, Inc., in San Diego. Dr. Sutton's research has included studies on understanding hunter-gatherer adaptations to arid environments, entomophagy, prehistoric diet and technology, and optimal foraging theory. Dr. Sutton has worked at more than 120 sites in western North America and has published over 150 books, monographs, and papers on archaeology and anthropology.
