Production Editor	Rene Brace
Publications Committee	Bob Brace, Stephen Dwyer, Irene Foster, Megan Galway, Jane Gothold, Joe Hodulik, Albert Knight, Michael Macko, Pat Maxon, and Ivan Strudwick

Pacific Coast Archaeological Society Quarterly

The *Pacific Coast Archaeological Society Quarterly* is a publication of the Pacific Coast Archaeological Society (PCAS), which was organized in 1961. PCAS is an avocational group originally founded to study and to preserve the anthropological and archaeological history of the original inhabitants of Orange County, California, and adjacent areas. The Publications Committee invites the submittal of original contributions dealing with regional history and prehistory. Although PCAS is especially interested in reports which shed further light on the early inhabitants of coastal southern California, it always welcomes reports on the wider Pacific coast region.

Information about subscriptions to the *Pacific Coast Archaeological Society Quarterly* and the *PCAS Newsletter* is available online at www.pcas.org. Back issues of the *Pacific Coast Archaeological Society Quarterly* are available. An index to Volumes 1 through 40 is available as Volume 40, Numbers 3 & 4. This searchable index is online at www.pcas.org. Four *Occasional Papers* (on Catalina Island, Mexican Majolica, and the Peralta Adobe and a remembrance of H. B. Nicholson) have also been published by PCAS. To place an order, receive information about the Pacific Coast Archaeological Society, or submit an article for publication, email publications@pcas.org or write: Pacific Coast Archaeological Society, PO Box 10926, Costa Mesa, California, 92627. Additional information is available at www.pcas.org. PCAS is not responsible for delivery of publications to subscribers who have not furnished a timely change of address.

Recent issues of the *Pacific Coast Archaeological Society Quarterly* are available at www.pcas.org and can be downloaded and viewed but not printed. Articles appearing in the *Pacific Coast Archaeological Society Quarterly* are abstracted in *Historical Abstracts* and *America: History and Life*. This issue of the *Pacific Coast Archaeological Society Quarterly* is copyrighted © 2026 by the Pacific Coast Archaeological Society. ISSN 0552-7252.

This issue was published in April 2026. In the *PCAS Quarterly* publication sequence, this is Volume 58, Numbers 1–4.

Contents

Tomo-Kahni, A Nüwa (Kawaiisu) Village: Archaeological Investigations at CA-KER-230, Tomo-Kahni State Historic Park, Southern Sierra Nevada, California 1
Mark Q. Sutton, Mark W. Allen, Gregory R. Burns, R. W. Robinson, and David D. Earle

Appendix A: New Information on Sites CA-KER-229, CA-KER-769, CA-KER-4445 (Feature E), and CA-KER-5950 189
Mark Q. Sutton

Appendix B: Debitage Analysis for CA-KER-230 197
Mark W. Allen

Appendix C: Archaeological Faunal Remains from CA-KER-230, Tomo-Kahni State Historic Park 211
Thomas A. Wake

About the Authors

Mark W. Allen (PhD, UCLA) is Professor Emeritus at Cal Poly Pomona. His research interests include the archaeology of warfare, chiefdoms, and foragers. He has over 40 years of fieldwork experience in California, Fiji, Hawai´i, Illinois, Guatemala, Kentucky, New Mexico, and New Zealand. His books include *The Archaeology of Warfare: Prehistories of Raiding and Conquest (*Arkush and Allen 2006), *Burnt Corn Pueblo: Conflict and Conflagration in the Galisteo Basin, A.D. 1250-1325* (Snead and Allen 2010), *Violence and Warfare Among Hunter Gatherers* (Allen and Jones 2014), and most recently *Māori Archaeology and History of Heretaunga: Six Centuries of Power and Place* (Allen, Tomoana, August, and Moore 2024).

Gregory R. Burns received his PhD from UC Davis in 2019 after earning an undergraduate degree from California State Polytechnic University, Pomona. He is a principal investigator at Sundance Consultants and an adjunct professor in the University of Utah Department of Anthropology. His research interests include California and the Great Basin, trade and emergent monetary systems, behavioral ecology, geospatial modeling, and stable isotope analysis.

David D. Earle earned his MA at UC Santa Barbara. He specializes in southern California Native ethnohistory and ethnography, including J. P. Harrington's work and mission register materials, rural community, homesteader, and highway/railroad history, and as a consultant for CRM firms, government agencies, and Native tribes. He has also carried out ethnohistorical research in Mexico, Colombia, Peru, and Spain, and archaeological work in Peru and California. He has long been interested in the application of ethnographic and ethnohistorical data and insights to archaeological problems. He is retired from the Anthropology Department at Antelope Valley College.

Roger W. Robinson received his initial exposure to archaeology as a high school student in 1959. He learned basic field methods in archaeology working for the California State Department of Parks and Recreation under Francis A. Riddell between 1960 and 1967. In 1967, after completing his MA in anthropology at CSU Sacramento, Robinson began a 40-year teaching career at Antelope Valley College in Lancaster, California. At Antelope Valley College he developed and directed a field research program focused on the Antelope Valley and western Mojave Desert which operated until his retirement in 2007. In 1984, Robinson began a research program with Francis Riddell focused on the south coast of Peru. He instructed students from universities in both the United States and Peru during summers in Peru. After retirement, Robinson continued to be involved in local archaeology and carried on research in Peru until his death in 2025.

Mark Q. Sutton began his career in 1968, working at sites with the local community college while still in high school. He went on to earn a BA (1972), an MA (1977), and a PhD (1987) in anthropology. He has worked for the US Air Force, the US Bureau of Land Management, various private consulting firms, and taught at a number of community colleges and universities, including California State University, Bakersfield, from 1987 to 2007 where he retired as Emeritus Professor of Anthropology. He then taught at the University of San Diego from 2012 to 2022. From 1986 to 2000, Dr. Sutton served as editor of the *Journal of California and Great Basin Anthropology* and is now editor of the *Pacific Coast Archaeological Society Quarterly*. In 2022, he received the Society for California Archaeology Lifetime Achievement Award. He has investigated hunter-gatherer adaptations to arid environments, entomophagy, prehistoric diet and technology, and the prehistory of California. Dr. Sutton has worked at more than 150 sites in western North America, has presented some 126 papers at professional meetings, and has published more than 260 books, monographs, articles, and reviews on archaeology and anthropology, including the textbooks *Introduction to Native North America, A Prehistory of North America, Archaeology: Science of the Human Past, Introduction to Cultural Ecology, Paleonutrition, Bioarchaeology, Human Societies, Laboratory Methods in Archaeology,* and *Our Ancient Selves: What Archaeology Has Taught Us About Us*. He lives in San Diego with his wife, Melinda, and their dog Holly.

Thomas A. Wake received his PhD in 1995 from UC Berkeley, and in 1996 he was named the director of the UCLA Cotsen Institute of Archaeology's Zooarchaeology Lab. A lifelong California archaeologist, Dr. Wake began his career studying the mammal remains recovered from Fort Ross State Historic Park and excavating on SE Farallon Island and at several sites in southern California. He has produced over 175 reports on archaeological faunal assemblages for public (California State Parks, National Park Service, Caltrans) and private entities (various CRM firms) throughout California. He also works in Mexico and Panama.
