Pacific Coast Archaeological Society Quarterly

The *Pacific Coast Archaeological Society Quarterly* is a publication of the Pacific Coast Archaeological Society (PCAS), which was organized in 1961. PCAS is an avocational group originally founded to study and to preserve the anthropological and archaeological history of the original inhabitants of Orange County, California, and adjacent areas. The Publications Committee invites the submittal of original contributions dealing with regional history and prehistory. Although PCAS is especially interested in reports which shed further light on the early inhabitants of coastal southern California, it always welcomes reports on the wider Pacific Coast region.

Information about subscriptions to the *Pacific Coast Archaeological Society Quarterly* and the *PCAS Newsletter* is available online at www.pcas.org. His career spans over 40 years, first as a museum curator, and then as the head of Paul G. Chace & Associates, a cultural resources management firm, based in Escondido. Elected in 1976 as a Fellow of the American Anthropological Association, Chace has lectured and published widely on Western prehistory, historical archaeology, the San Diego Presidio, and Chinese American cultural heritage. He served PCAS as Technical Advisor (1963–1971), on the Board of Directors (2003–2005), and as President (2004), and his contributions have often appeared in the *PCAS Quarterly*.

Joe Cramer, MA and MFA, received his formal education in art at California State University, Fullerton, with a concentrated area of study in ceramic sculpture. He currently teaches ceramic art classes at Santa Ana College, Menifee Valley College, and Rio Hondo College. Since 1982, he has enjoyed working in his spare time as an illustrator of academic articles, books, and associated materials for southern California archaeologists and institutions.
